REPORT

ON THE

RAIL-BORNE TRAFFIC OF BENGAL

During the year 1892-93.

THIS Report, the ninth of its kind, furnishes statistics of the total trade, external and internal, of the Lower Provinces of Bengal, carried by rail during the year 1892-93 as registered under the block system. In previous years statistics of the trade carried by each State Railway in these Provinces were published in Part II of the Report; but as State Railways are no longer under Provincial management, it has been decided to discontinue the publication of the statistics referred to, and Part II will therefore not appear in this and future Reports.

2. The Report is based on returns furnished by the officers named in the

Assistant Auditor, East Indian Railway, Jamalpur.

Director of Land Records and Agriculture, Bombay.

Auditor and Examiner, Bengal North-Western and Tirhut Railways, Goruckpore.

Auditor, Oudh and Rohilkhand Railway, Lucknow.

Examiner of Accounts, North-Western Railway, Lahore.

Examiner of Accounts, Eastern Bengal State Railway System, Sealdah (Calcutta).

Auditor, Bengal-Nagpur Railway.

margin, and on the following Reports, viz., the Report on the earnings of the East Indian Railway Company; the Report by the Collector of Customs, Calcutta; the Reports by the Railway authorities on trade fluctuations and changes in railway freights; the section relating to weather and crops, manufactures and mines, and trade and commerce, in the General Administration Reports submitted to Government by Commissioners of Divisions; and the trade valuation statements received from 12 selected district officers, the Collector of Customs, Calcutta, the Board of Revenue, L.P., the Calcutta tea and indigo brokers, and from the several Local

Governments and Administrations in India.

3. In last year's Report it was stated that in connection with a scheme for a tramway between Ranchi and Purulia, the statistics of the trade registered at five stations on the Ranchi-Purulia road from the middle of September 1891 to the middle of March 1892 showed that the traffic from Ranchi to Purulia amounted to 3,53,000 maunds, or say 35,300 carts or 200 carts a day, and that from Purulia to Ranchi to 1,89,000 maunds, or about 100 carts a day. It appears, however, from enquiries made since the issue of the Report, that those figures are incorrect, inasmuch as they do not represent the total number of carts which passed from Ranchi to Purulia, but the total number registered at each station. Accurate statistics of the traffic are not available. In view of the proposed extension of the Eastern Bengal State Railway from Panchuria to Govindpur in the Faridpur district, statistics of the road and river traffic were registered at five stations for a period of four months, viz., from the 20th June to the 19th October 1892. The total weight of the traffic registered during that period amounted to 7,95,372 maunds, of which 7,88,978 maunds were carried by river and 6,394 maunds by road.

CHAPTER I.

GENERAL SUMMARY OF THE SEASONS AND RESULTS OF THE HARVESTS AND NOTICE OF PRICES.

THE rainfall during the year was in excess of that of 1891-92 in every Division except in Orissa, where it was slightly below that of the preceding year; in the Chittagong and Chota Nagpur Divisions the fall exceeded the average of 1890-91, which was a year of abundant rainfall. Though the quantity was sufficient, the distribution, if generally better than in the previous year, was not altogether favourable to agriculture, rain being deficient in September and part of October when most wanted, and plentiful about the end of the latter month and the beginning of November everywhere except in North Bihar. After the first week in November there was no rain in Bengal until the commencement of January. During that month and February and March there was throughout these Provinces a continual succession of heavy storms accompanied sometimes by hailstones, causing much damage to the standing crops; injury was also caused by floods in some districts. Notwithstanding these unfavourable conditions, the yield of the principal crops was larger than in the preceding year.

2. The *bhadoi* or rainy season rice crop was generally good, and the outturn for the whole Province was probably 16 annas, against a three-quarter crop in 1891-92. Though the absence of rain in the first fortnight of October is said to have seriously affected the winter rice crop in Central Bengal, Bihar, and Chota Nagpur, the average outturn for the whole Province was 14 annas, against 10 annas in 1891-92. The *rabi* crop, comprising cereals, pulses, and oil-seeds, though considerably injured by the unseasonable rain in February and March, gave an outturn of not less than 14 annas against 9 annas in 1891-92; in the Saran district it was a full crop (16 annas), while in 30 out of the 45 districts the outturn is estimated at 12 annas and upwards. The *wheat* harvest was decidedly better than in the preceding year. In Bihar it averaged 12 annas, against 7 annas in 1891-92. The outturn of *barley* in Bihar was 12 annas; *oats* yielded a full average crop in Muzaffarpur and 15 annas in Saran and Bhagalpur.

3. The past year proved extremely unfavourable to *indigo* in Bihar; the delay in the setting in of the rains, the uncertain breaks in the commencement, and the abnormal fall in August, reduced the outturn to about half that of the previous year. The *jute* crop for the whole Province averaged 14 annas, against 11 annas in 1891-92. In the Dinajpur and Pabna districts it was an average crop, while in Bogra and in the Kishanganj subdivision of the Purnea district it averaged 18 annas, and in the Dacca, Faridpur, and Rangpur districts, 15 annas. *Poppy* at one time promised to be a bumper crop in the Patna Division, but stormy weather, hail and easterly winds in March reduced the yield to 14 annas; the average outturn for the Province was not less than 12 annas. The outturn of *tobacco* was everywhere better than in 1891-92. In the Dinajpur and Rangpur districts it was a full crop, and in the Jessore and Bogra districts a 14-anna crop, the average for the whole Province being not less than 12 annas, against 10 annas in the preceding year. *Sugarcane* was generally a good crop, and *mulberry* is estimated at 13 annas.

4. The following table, which has been prepared from the crop reports published by the Director of Land Records and Agriculture, Bengal, shows the estimated outturn of some of the principal crops, division by division, during the past two years :—

DIVISIONS.	ESTIMATED OUTTURN OF THE PRINCIPAL CROPS IN ANNAS (16 ANNAS BEING TAKEN AS AN AVERAGE CROP).									
	Wheat.		Bhadol rice.		Winter rice.		Pulses.		Jute.

Tea, Indian	2.	Unrefined	...	4 8	4 0	11.11	...
			...	34 4	44 0	28.47	...
Tobacco, unmanufactured	8 14	8 12	...	1.41

7. With reference to the list of value rates for the year 1892-93, which was appended to the returns of the rail and river-borne trade of Bengal for the quarter ending the 31st March 1893, and which is also given in the appendix to this report, the Government of India in the Revenue and Agricultural Department's letter No. ²⁴⁴³/₁₃, dated the 5th August 1893, have directed that the causes of the variations in the rates of the articles noted in the margin, as compared with those for the previous year, should be explained in this review. The necessary explanations are accordingly furnished.

8. *Indigo*.—Owing to unseasonable weather, the production was the lowest known for many years; prices consequently rose.

9. *Cotton piece-goods, Indian (in boxes)*.—The fall in the price of piece-goods packed in boxes, from Rs. 100 per maund in 1891-92 to Rs. 81 per maund in 1892-93, is due to the fact that the value rate for the past year was based on the trade statistics of 1891-92, in which year the trade in these goods was dull and the market generally unfavourable, and prices were in consequence low.

10. *Intoxicating drugs other than opium*.—The decline in the value rate under this head from Rs. 32-6 per maund in 1891-92 to Rs. 16 per maund in 1892-93, is attributed to a fall in the prices of flat and round ganja, and charas, consequent on a good ganja crop during the past year.

11. *Shawls*.—As regards the value rate of Rs. 781 per maund for shawls during 1892-93, against Rs. 957-8 for 1891-92 shown in the annual valuation statement annexed to the returns for the first quarter of 1893-94, it will be seen from the explanation given in paragraph 17 of Chapter I of last year's report that the latter rate was incorrect. A revised rate, viz. Rs. 770 per maund, was shown in the list appended to the returns for the first quarter of 1892-93, which also appears in the statement appended to this report.

CHAPTER II.

EXTERNAL TRADE OF BENGAL.

STATEMENT II.

The following abstract shows for the past two years the total weight and value of the external rail-borne trade of Bengal with other Provinces:—

		1891-92.		1892-93.	
		Quantity. Mds.	Value. Rs.	Quantity. Mds.	Value. Rs.
Imports into Bengal	...	1,47,93,149	10,12,99,906	1,86,51,950	11,03,27,357
Exports from Bengal	...	1,59,50,013	9,50,45,910	1,69,82,917	9,80,20,197
Total	...	3,07,43,162	19,63,45,816	3,56,34,867	20,63,47,554

During the past year there was a further increase in the total trade carried both ways, the imports showing an advance of 38,58,801 maunds, or 26·08 per cent., and the exports of 10,32,904 maunds, or 6·48 per cent. As regards imports, the improvement was due to larger supplies of food-grains and mustard seed from the Upper and Central Provinces and Rajputana, while as to exports, the increase under the heads of coal and coke, iron, and unrefined sugar, raised the total in spite of a large decline in the exports of rice not in the husk.

2. The total import and export trade, Province by Province, in respect of the above traffic during the past two years, is given in the abstract below, which also shows the percentage borne by the trade of each Province to the total traffic:—

<i>Imports into Bengal.</i>				<i>Exports from Bengal.</i>			
WHENCE IMPORTED.		Total. Mds.	Per- centage borne to total trade.	WHITHER EXPORTED.		Total. Mds.	Per- centage borne to total trade.

Other food-grains ...	6,58,806	49'88
Rape and mustard seed ...	5,07,971	110'61

Staples showing a decrease in comparison with the figures of 1891-92.

			Quantity.	Percentage of decrease.
			Mds.	Per cent.
Linseed	55,996	1.79
Ghi	46,035	33.07
Saltpetre	23,061	9.52
Sugar, refined	10,776	46.06

5. Notwithstanding that the poor cotton crop in the North-Western Provinces and the Panjab in 1890-91 was followed by exceptionally bad harvests in the succeeding two years, the trade in this staple revived during the past year, in consequence of a good demand in Calcutta for export to Germany, the United Kingdom, and Italy, and for consumption in the local mills.

6. In 1891-92 the failure of the harvests in Russia and Europe caused a great expansion of the wheat trade. In the year under report, however, no such demand existed for Indian wheat, as the very large crop in America enabled that country to meet the requirements of the United Kingdom and continental Europe, and the shipments from Calcutta consequently declined by 30 per cent. Owing, however, to good crops in the supplying districts, the imports into Calcutta from the Central Provinces, and into Bihar from the North-Western Provinces and Oudh, increased, while the despatches to Calcutta from the Panjab, where the crop was indifferent, declined. The improvement in the imports into Bengal occurred entirely during the first quarter of 1892-93, and was due to extensive speculations in anticipation of a rise of price in Europe, and to low sea freights and exchange.

7. The trade in these cereals, and especially in gram and pulse, received a great stimulus in consequence of the demand in Calcutta for home consumption and for export to Madras, Burma and coast ports, and large quantities were drawn from the Upper Provinces and Rajputana for shipment to those places. The Western Bengal and Bihar blocks, where there was a partial failure of the crops in 1891-92, also received larger supplies of cheap grains for local consumption.

8. Owing to good crops in the North-Western Provinces and Oudh, almost every station in those provinces sent larger quantities of rape and mustard seed to Calcutta, where there was an active demand for crushing purposes, and to the Western Bengal and Bihar blocks, where the oil-seed crop was short. The decrease under linseed occurred in the supplies from the North-Western Provinces and Oudh and Rajputana, against an increase in the despatches from the Central Provinces to Calcutta. The decline in this trade is attributed to exhaustion of stocks and to a falling off in the demand for export to the United Kingdom, which is the chief importer.

9. The trade under this head showed a decrease, as the Calcutta market rates were not sufficiently remunerative to attract produce from the North-Western Provinces and Oudh.

10. In consequence of increased production in Bihar, Calcutta drew smaller supplies from the North-Western Provinces and Oudh and the Panjab. There was a fair demand for this article in Calcutta for export to the United Kingdom, the United States, and China.

11. The sugarcane crop in Bihar during the past year was larger than in 1891-92, and consequently the imports of refined sugar from the North-Western Provinces and Oudh into that block and Calcutta diminished. The sugar-refining industry in Bihar is said to be flourishing. The importation of refined sugar by sea into Calcutta from foreign countries during the past year was nearly 50 per cent. less than in the preceding year.

12. The following statements show the principal articles in which trade fluctuations occurred:—

Articles showing an increase in comparison with 1891-92.

		Quantity of increase.	Percentage of increase.
		Mds.	Per cent.
Coal and coke	...	6,41,869	7.09
Iron	...	4,78,997	54.13
Kerosine oil	...	97,510	16.00
Salt	...	36,981	11.36
Sugar, unrefined	...	3,01,988	65.89
Tobacco, manufactured	...	93,979	48.86

Articles showing a decrease in comparison with 1891-92.

		Quantity of decrease.	Percentage of decrease.
		Mds.	Per cent.
Cotton piece-goods (European)	...	17,940	2.45
Rice not in the husk	...	4,24,173	77.05
Gram and pulse	...	67,402	88.75
Gunny-bags and cloth	...	62,527	7.70

13. The increase under this head occurred in the despatches to the North-Western Provinces and Oudh and the Panjab, where there was a demand for railway and brick-burning purposes, and for use in the mills and factories. The exports to the Central Provinces, however, fell off, as the Railway drew its supplies in 1892 from the Umaria pit in Rajputana, instead of from the collieries in Bengal.

14. The falling off in this trade was chiefly in the despatches from Calcutta to Cawnpur, Delhi, and stations on the Bengal North-Western and Oudh and Rohilkhund Railways, and was due to a limited demand, owing to large stocks in hand from the consignments sent up in 1891-92.

15. A limited demand in the Panjab and the Central Provinces, consequent on the depressed state of the export produce traffic, accounts for the smaller consignment of gunnies from Calcutta.

16. Decreases under this head are observable in the exports of rice not in the husk and of gram and pulse to the North-Western Provinces and Oudh, and are attributed to the poor outturn of crops in the Lower Provinces in 1891-92.

17. The exports of iron again showed an increase, the improvement being due (1) to the supply of cast-iron pipes for the water-works at Cawnpur, Agra, and Raipur, and (2) to the supply of angle iron for the harness and saddlery factory at Cawnpur.

18. Owing to the growing demand for this oil, which on account of its cheapness is fast supplanting vegetable oils for burning purposes, the exports from the Eastern Bengal block and Calcutta to the Upper and Central Provinces showed an increase.

19. An increase occurred in the exports of imported salt from Calcutta to the North-Western Provinces and Oudh, where there appears to have been a demand; those Provinces also received larger supplies of Sambhar salt from Rajputana and sea salt from the Bombay Presidency. The importation of Sambhar salt into the Bihar block during the year fell from 20,156 maunds to 630 maunds, the supplies of rock salt from the Panjab also showing a small decrease, viz., from 85,334 maunds to 78,712 maunds.

20. The advance in the despatches of unrefined sugar to the Bombay Presidency, the North-Western Provinces and Oudh, Central Provinces, Berar, and Rajputana, occurred entirely in the supplies from Bihar, where there was a good sugarcane crop.

21. A fair crop in Bihar, coupled with a demand for tobacco leaf in the North-Western Provinces and Oudh and the Central Provinces for local consumption, led to an increase in the exports of this article.

CHAPTER III.

INTERNAL TRADE OF BENGAL.

STATEMENT III.

THE following statement shows for the past two years the total weight of the internal rail-borne trade of Bengal carried between the different registration blocks within the province, and the percentage of increase or decrease in the traffic of each block during 1892-93 as compared with 1891-92:—

Exports from the—	Into the Bihar block.	Into the Western Bengal block.	Into the Eastern Bengal block.	Into the Northern Bengal block.	Into the Dacca block.	Into the Calcutta block.	Into the Chota Nagpur block.	Total.	Increase (+) or decrease (—) as compared with 1891-92.
1	2	3	4	5	6	7	8	9	10

2. The total downward and upward trade, and the proportion borne by the Calcutta traffic to the total trade during the past two years, are given below:—

	Total traffic.		Calcutta traffic.		Proportion of the Calcutta traffic to the total trade.	
	1891-92. Mds.	1892-93. Mds.	1891-92. Mds.	1892-93. Mds.	1891-92. Per cent.	1892-93. Per cent.
Downward traffic	6,03,56,244	6,17,22,821	4,90,85,246	5,05,87,909	81·33	81·95
Upward "	1,41,93,707	1,36,68,570	1,11,76,724	1,04,66,437	78·74	77·40
Total	7,45,49,951	7,52,31,391	6,02,61,970	6,10,44,346	80·83	81·14

These figures show that while the downward trade, both as regards the total trade and the Calcutta traffic, increased by 14,66,577 maunds and 15,02,663 maunds respectively, the upward traffic in both cases showed a decrease of 6,85,137 maunds and 7,20,287 maunds respectively. The chief fluctuations in the downward trade were an increase of 35,91,570 maunds under coal and coke, 19,88,198 maunds under raw jute, 4,21,730 maunds under stone and lime, 2,36,549 maunds under kerosine oil, 1,43,017 maunds under un-refined sugar, and 1,04,785 maunds under iron, against a falling off of 18,06,295 maunds under linseed, 11,94,513 maunds under wheat, 9,41,421 maunds under rice not in the husk, 8,60,967 maunds under gram and pulse, 3,30,505 under mustard seed, and 1,56,478 under Indian tea. In the upward traffic, coal and coke showed an advance of 1,98,267 maunds, and iron of 1,39,294 maunds, while the trade in rice declined by 3,78,144 maunds, and that in salt by 2,54,435 maunds.

Calcutta Trade.

3. The following statement shows in respect of the chief articles of merchandise, the imports into Calcutta by all routes, and the exports therefrom by sea, during the past two years:—

5. *Coal and coke.*—The increase under this head in the downward trade was due to larger supplies sent from Bihar to the Western Bengal block, and from the Western Bengal block to Calcutta, against a decrease to Calcutta and Eastern Bengal from Bihar. The advance was due to a demand for railway and steamer purposes, for local consumption, and for export to coast and foreign ports. The shipments to foreign ports were principally to Ceylon, while the bulk of the exports to coast ports went to Bombay, Madras, Cuddalore, and Rangoon. The improvement in the upward trade was chiefly due to the requirements of the Northern Bengal block, which received its supplies from the Western Bengal block.

6. *Indigo.*—Owing to unfavourable weather last year, the production, besides being inferior in quality, was the lowest known for many years, and consequently the imports into Calcutta from the Bihar, Eastern Bengal and Northern Bengal blocks declined. The exports by sea from Calcutta during the year fell off by 37 per cent.

7. *Wheat*.—In consequence of the partial failure of the wheat crop in these provinces, coupled with the low prices in Europe and the absence of demand for shipment to foreign ports, the consignments to Calcutta from the Bihar, Western, Eastern, and Northern Bengal blocks fell off.

8. *Rice and paddy*.—Owing to the poor outturn of the crops in 1891-92, there was a large decrease in the quantities sent to Calcutta from the Western, Eastern, and Northern Bengal blocks, but there was an improvement in the consignments from Bihar. In the upward trade, the despatches from Western Bengal to Bihar and Northern Bengal showed a falling off.

9. *Gram and pulse*.—The short crop of 1891-92 is also responsible for a fall in the imports of gram and pulses into Calcutta from Bihar and Eastern Bengal, notwithstanding that there was a demand for export to coast ports.

10. *Hides of cattle*.—Owing to a good demand in Calcutta for export to Europe, the consignments from the Bihar and Dacca blocks showed an increase.

11. *Jute, raw*.—In consequence of the exceptionally high prices which prevailed for jute in 1891-92, a larger area was cultivated in the year under report, and, with favourable weather, the outturn was much larger than in 1891-92. The imports from the Eastern and Northern Bengal and Dacca blocks into Calcutta increased. The consumption of jute all over the world is increasing, and the trade in this article is rapidly expanding. The increase in the exports by sea from Calcutta during the past year was 26 per cent., the chief importing countries being the United Kingdom, the United States, and Germany.

12. *Lac*.—The crop last year was smaller than in the previous year, and this accounts for the diminished supplies of stick and shell-lac sent to Calcutta from Chota Nagpur, Bihar, and the Western Bengal block. A poor crop in the Chota Nagpur Division caused a large decline in the exports of stick-lac to the Western Bengal block.

13. *Iron*.—In the downward trade, the despatches of iron from Bihar and the Eastern Bengal block to Calcutta showed an increase, but those from Bihar and Chota Nagpur to the Western Bengal block declined. From Calcutta to Bihar, Eastern Bengal, and Chota Nagpur, the exports increased, while to the Western and Northern Bengal blocks they fell off. The imports by sea into Calcutta during the year under report of iron (wrought and unwrought) showed a decrease.

14. *Oils*.—While the imports of kerosine oil from Budge-Budge, in the Eastern Bengal block, into Calcutta showed an increase, the despatches from Calcutta to the Bihar and Western Bengal blocks fell off. The quantities carried by steamer from Calcutta to the Western Bengal block, however, improved, while those carried to Bihar declined.

15. *Oil-seeds*.—Short crops in 1891-92, coupled with a falling off in the demand during the past year in Calcutta for shipment to Europe, led to smaller consignments of linseed and mustard seed being sent to Calcutta from Bihar and the Western and Eastern Bengal blocks. To meet local requirements, Calcutta had to draw its supplies from the Upper Provinces, as already explained in the external trade section of this report.

16. *Salt*.—Owing probably to the large supplies sent in 1891-92 to the internal blocks, the despatches from Calcutta in 1892-93 declined.

17. *Saltpetre*.—The outturn in the year under report was larger than in the previous year, and this fact, together with the increased demand for export by sea, led to larger despatches from Bihar to Calcutta.

18. *Stone and lime*.—The increase under this head was chiefly in road metal from Pakur and adjacent stations to Sealdah and Chitpur.

19. *Sugar*.—While the inland exports of refined and unrefined sugar from Calcutta showed a decrease, the imports into Calcutta of unrefined sugar from the Bihar and Eastern Bengal blocks, where the sugarcane crop was good, showed an increase. The decline in the despatches of refined sugar from Calcutta was due to the fact that less was imported by sea.

20. *Tea, Indian*.—Though these returns show a large decrease in the imports of tea into Calcutta from the Eastern Bengal block, there was actually no great falling off in the trade, as under the revised system adopted from the 1st April 1892 for the registration of trade between Bengal and Assam, all imports from the latter Province which were shown as rail-borne trade have since that date been treated as imports from Assam by river. Owing to unfavourable

weather, the outturn both in Assam and Bengal was smaller than in 1891-92, but the quality of the tea was above the average.

21. *Tobacco, unmanufactured*.—The tobacco crop in the Northern Bengal and Dacca blocks was larger than in 1891-92, and consequently the despatches from those blocks to Calcutta showed an increase. The exports of this article from Calcutta by sea rose in comparison with 1891-92 by nearly 570 per cent., owing to an increase in the shipments to Belgium and the revival of the trade with Holland

APPENDIX.

Statement showing the average wholesale prices of articles of trade which ruled in Bengal during the year 1892-93, as well as the rates of deduction made from the gross weight to obtain net weight.
